Career Objective

Motivated Computer Science student skilled in Python, SQL, and machine learning. Seeking a Data Engineer or Software Developer role to build scalable, data-driven solutions.

Education

- **Pragati Engineering College** *2023 – 2027*
  B.Tech in Computer Science and Engineering – CGPA: 7.59
- **Sasi Junior College** *2021 – 2023*
  MPC – 92%

Work Experience

- **ServiceNow Internship** *Feb 2026 – Mar 2026*
  Configured ServiceNow modules, customized forms, and automated ITSM workflows, improving service request processing efficiency by 25%.
- **Infosys Springboard Internship** *Jan 2026 – Mar 2026*
  Developed an AI-based sustainable packaging solution that reduced packaging costs by 18%, improved material selection efficiency by 30%, and lowered carbon footprint by 25%.
- **Google AI/ML Internship** *Oct 2025 – Dec 2025*
  Built and evaluated machine learning models using Python and Scikit-learn, improving prediction accuracy by 15% through data preprocessing and feature engineering.

Technical Skills

- **Programming Languages:** Python, SQL
- **Concepts:** OOPS, DSA, DBMS, Computer Networks
- **AI/ML:** Artificial Intelligence, Machine Learning, Deep Learning, NLP, Generative AI
- **Cloud:** Google Cloud Platform (GCP)
- **Tech Stack:** MySQL, SAP S/4HANA, MongoDB, Power BI, Git, Figma, SAP ABAP
- **Web Development:** HTML, CSS, JavaScript, Flask, REST API

Projects

- **Car Rental System** - Enhanced a Car Rental System using Java and Spring Boot with secure authentication and real-time booking.Designed REST APIs for reservation management and improved system efficiency.
- **AI Smart Traffic Optimization System** Developed an AI-based traffic optimization system that monitors traffic density across multiple lanes and dynamically adjusts signal timing for better road utilization, reduced delays, and smarter traffic control.
- **EcoPack AI Recommendation system**-Built an recommendation system that focuses on the environmental sustainability such as CO2 and cost prediction models.
- **AI Based RAG Assistant**-Built an AI-based RAG assistant for educational purposes to retrieve information from documents and generate accurate responses using language models.

Certifications

- SAP Certified Associate-Back-End Developer-ABAP Cloud
- Agentforce Specialist – Issued by Salesforce
- Python Basics – Issued by HackerRank
- Data Engineering– Issued by AWS
- Data Analytics-Issued by Google

Achievements

- Achieved first prize in college level Hackathon
- Served as a BrainOvision Coordinator for the academic year 2024-2025
